

I am Not in favor or "tolls"

Tolls on I-95, which the "media" lately have been calling the "turnpike" to ready CT citizens for a toll road enactment, should not be instituted. We have enough taxes in this state, let this government be more fiscally conservative in their spending, (so more taxes are not necessary) instead of creating more burden on the citizens of CT, imposing taxes/tolls on out of state commuters, and visitors; not to mention the traffic jams it will probably cause. If this state doesn't have enough money to spend on the projects, then the CT state government needs to STOP SPENDING until they cover the bills they have; and only then will it be able to have money to spend on needed projects!

Sincerely,

Cheryl Marceau  
Ridgefield, CT
